

KORYUKIVKA
space of possibilities

KORYUKIVKA TOWN COMMUNITY

Total Community population: 21 185 persons.
Koryukivka Town population: 13 060 persons.
Population of rural territories: 8 125 persons.

Size of the community territory: 1 174 km².
Total number of settlements: 66

1858

The economic development was beginning in the year of 1858, when a merchant Karl Justus Rauch built a sugar factory that employed 350 local villagers as workers.

The sugar refinery plant, 1918*

1876

In the year of 1876 a sugar refinery plant was built next to the sugar factory. The amount of workers was increased to 600 employees.

1941

In the year of 1941 the Koryukivka city had strong economy based on sugar production. Besides sugar factory there were an oil factory, a brick factory, wood harvesting enterprises, agricultural enterprises, schools and kindergartens, a hospital.

1943

On March 1 and 2 of 1943 the city was completely destroyed in the punitive operation that was done by a punitive squad of Nazi regime consisted of the 105 light Hungarian division, German rear formations and members of the Ukrainian Auxiliary Police. Within two days 6 700 residents of the city - most of which were women and children - were killed. All of the building in the city with dead bodies of the residents were burnt to the ground. The reason of so cruelty was the activity of partisans in forests nearby.

Fuels: biomass (remains of wood).

Source of fuels: private, state and municipal woodworking enterprises.

Capacity: 3500 kilowatt.

Output: 70 000 kWh of electricity per day.

Centralized heat supply in the town of Koryukivka

Before 2023, the centralized heat supply system of the city of Koryukivka was based on a system that uses natural gas as fuel.

In 2023, the centralized heat supply system of the town of Koryukivka was completely transferred to a system that uses biomass (remains of wood) as fuel.

In January 2023, **Stadt Waldkirch** helped us with a powerful generator (power of 450 kVA). Thanks to this equipment the heat supply system and the water supply system of Koryukivka town were online despite severe energy disruption.

In November 2022, **GIZ Ukraine** helped us with wood cutting equipment that was used for biomass preparation for the heat supply system of the town of Koryukivka.

The largest ecological complex in Ukraine - BRECH

A great place for residents of big cities who want to take a break from the hustle and bustle of the city in nature.

Type of activities:

- equestrian sports and competitions (stud farm that breeds Hanoverian horses);
- hunting and fishing;
- hiking and quad biking in forest;
- spa.
